

# Mega Twister

PREVENTION. PROTECTION. PEACE OF MIND.

## indicative seal

## Cost Effective, Pull Tight Twist Seals

1. Mega Twister seals are etched with permanent laser marking for name, logo, sequential numbers & barcode. Laser marking offers the highest level of security as it cannot be removed or replaced.
2. Heat staking technology is used to permanently affix the twister in the seal body. This technology will leave clear evidence of tampering if the seal is cut or forced open.
3. Colour coding is possible by combinations of clear transparent body and multi-coloured twister.

## Specifications

Product	Material	Wire Length	Wire Diameter	Pull Strength	Marking Area	Max Marking Digits
Mega Twister	Polycarbonate body with ACETAL twister	150mm (Std) or Customised	SS with coated 0.8mm Stainless steel 0.7mm	30kg 40kg	10mm x 20mm	8
