

SP Cash Bag Seal

PREVENTION. PROTECTION. PEACE OF MIND.

indicative seal

All Purpose Pull-tight Seal With Metal Locking

1. The SPCBS Cash Bag seals are etched with permanent laser marking for name, logo, sequential numbers & barcode. Laser marking offers the highest level of security as it cannot be removed and replaced.
2. Heat staking technology is used to permanently fasten caps to the seal. Heat staking is permanent and cannot be cut or forced open without leaving clear evidence of tampering.
3. Metal clip locking provides better locking and greater pull strength to the long, thick strap.
4. The spikes on the back of the strap provide a better grip on bags and other slippery materials.
5. Double sided locking teeth in the middle of the strap provide greater security.
6. Colour coding is made available through combinations of multi-coloured seals and transparent cap.

Specifications

Product	Material	Locking Length	Strap Width	Pull Strength	Marking Area	Max Marking Digits
-SP CBS - Tear Off (SPCBS_TO)	Polypropylene / Nylon with Stainless Steel metal pin	240mm	6mm	28kg	Flap: 20mm x 50mm	14
